LinkedIn — Portfolio

Summary

Front-end developer with 2+ years of professional experience building responsive, scalable web applications. Skilled in React, JavaScript, HTML5, CSS3, and modern UI frameworks. Strong background in CMS-based platforms, performance optimization, and cross-functional collaboration. Currently completing a Computer Programming diploma at Seneca Polytechnic with a focus on full-stack and cloud technologies. Passionate about creating clean, maintainable code and delivering engaging user experiences.

Experience

EzWeb — Toronto, ON
Front-End Developer — 2022 – 2024

- Developed and maintained responsive front-end components using React, JavaScript, and SCSS across enterprise-level CMS systems.
- Implemented REST API integrations, optimized performance, and improved accessibility compliance.
- Collaborated with designers and back-end developers to translate UI/UX into scalable features.
- Utilized Git, CI/CD pipelines, and code reviews to ensure production-ready deliverables.
- **Achievement:** Improved page load performance by 30% through refactoring legacy scripts and adding lazy-loading.

Beman Branding Agency — Toronto, ON
Web Developer — 2020 – 2022

- Built and customized e-commerce websites and portals with a focus on responsive design and scalability.
- Delivered client-facing applications by converting design mockups into reusable, modular code.
- Supported projects under tight deadlines while ensuring cross-browser compatibility and site performance.

Education

Seneca Polytechnic, Toronto, ON — 2023 – Present
Diploma in Computer Programming (In Progress)
Relevant Coursework: Web Development, Java, Python, Database Systems, Cloud Computing Fundamentals

Projects

- **React Portfolio Website** – Built a personal portfolio using React and TypeScript with reusable components and dynamic routing.
- **E-commerce Prototype** – Developed a full-stack prototype with React (frontend), Node.js/Express (backend), and MongoDB.
- **Accessibility-Focused UI Toolkit** – Created a component library with ARIA-compliant widgets and unit tests (Jest).

Skills

JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, React, Redux, Next.js (familiar), REST APIs, Git, Webpack, Babel, ESLint, CI/CD, Python, Java, C++, Accessibility Best Practices
