Summary

Frontend-focused software engineer with 2+ years of experience developing responsive, component-based interfaces using React, JavaScript, and Tailwind CSS. Currently expanding into React Native and full-stack development with Node.js and GraphQL. Strong attention to detail, performance optimization, and mobile-first design. Available for contract or remote roles.

Experience

Frontend Developer – EzWeb
Nov 2023 – Nov 2024

- Developed responsive web interfaces with HTML/CSS and jQuery; migrated select features to React for performance and modularity.
- Integrated API endpoints and debugged interface logic with cross-team collaboration.
- Documented UI behavior and established component structure across projects.

Junior Frontend Developer – Beman Branding Agency
Nov 2022 – Nov 2023

- Developed promotional and e-commerce UIs using Bootstrap, vanilla JavaScript, and jQuery.
- Collaborated on client meetings to gather requirements and delivered mobile-responsive sites.
