Summary

Full-stack developer with 2+ years of professional experience building performant, scalable applications with strong frontend and backend integration. Proven success delivering production-grade React interfaces and Python/FastAPI services, with a focus on clean code, modular design, and automation.

Experience

Frontend Developer – EzWeb
Nov 2023 – Nov 2024

- Built custom React and jQuery-based components for business websites with optimized rendering and SEO compliance.

- Collaborated across teams to integrate APIs and troubleshoot full-stack performance issues.

- Developed reusable scripts and deployment routines to support multi-client CMS workflows.

Frontend Developer – Beman Branding Agency
Nov 2022 – Nov 2023

- Delivered Figma-to-code website builds with vanilla JavaScript, Bootstrap, and responsive best practices.

- Supported backend integration for payment modules and content panels in collaboration with developers.

Projects

OptionAI Pro – Trading Dashboard (Ongoing)
React, FastAPI, Python, WebSocket, MUI, DataGrid
Multi-phase system for managing automated trade logic and real-time monitoring of options strategies.

Personal Website – arashkh.com
Next.js, Tailwind CSS, Vercel
Fully responsive, dark/light themed portfolio integrated with blog-ready CMS components and GitHub workflow.
