Summary

Front-End Developer with 2+ years of professional experience and growing full-stack capability. Proven success in building responsive, accessible UI components using modern web technologies. Skilled in CMS customization, frontend frameworks, and integrating APIs. Passionate about clean design, scalable code, and contributing to high-impact, user-centered applications. Currently enhancing cloud and backend skills through Computer Programming studies at Seneca Polytechnic.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Angular (basic), Tailwind, Bootstrap, jQuery

- **Backend:** Node.js, PHP (basic), RESTful APIs, Python, SQL

- **Tools & CI/CD:** Git, GitHub, Docker (basic), Jenkins (learning), VS Code, Bash scripting

- **CMS:** DotNetNuke (DNN), Wix, WordPress

- **Design & UX:** Figma, Canva, accessibility standards, cross-browser testing

- **Cloud & Deployment:** Netlify, Vercel, (PCF/OCP familiarity in progress)

Experience

Website & Frontend Developer – EzWeb
Tehran, Iran   Nov 2023 – Nov 2024

- Developed and maintained responsive UI for client websites using HTML, CSS, and jQuery within DNN CMS.

- Collaborated with designers and backend developers to integrate dynamic content and optimize performance.

- Handled support tickets, reduced client issues through framework refactoring and internal documentation.

Frontend Developer – Beman Branding Agency
Tehran, Iran   Nov 2022 – Nov 2023

- Converted Figma/PSD designs into fully responsive websites with HTML, Bootstrap, and JavaScript.

- Built e-commerce and business sites with CMS integration and custom modules.

- Provided training for clients and junior developers on using the CMS and editing content.
